بتكنولوجيا عالمية

Welcome

The Beginning

One Day 40 years ago, four entrepreneurs, young and close relatives gentlemen named: Mohammed Suliman Al Yahya, Othman Abdulrahman Al Hussaini, Abdullah Suliman Al Yahya and Hammad Abdulrahman Al Hussaini), met to discuss the possibilities of starting their own business. They dreamed to put their mark on the growth of their country.

Thinking was based on having a project which help in food security, where the Saudi government seeks to develop agriculture sector at that time. These entrepreneurs agreed to participate in the national agricultural development project. So, they decided to develop the first brick for this project by starting their farm project in Sajir city.

To realize the dream that was created in the imagination of each one of them, they faced the problem of choosing a unique name for this edifice. The name was chosen (AKEL), the old name of the city of Ushaiger, the ancient city in the Al Washm area, located 200 km in the north-west of Riyadh city.

Since then, the glory of that city from which the name was chosen, the bricks continued to be built on top of each other, diversifying the business into a company that develops from the agricultural field to intervene in the field of construction sector such as low voltage panels, pumps and boosters.

About US

AKEL trading & industrial co. is a closed joint stock Co., established in 1980 to cover market demand in the sectors of energy, fluid management & agriculture.

Long since its establishment, **AKEL** formed strong partnerships with world renowned brands such as Schneider Electric, Grundfos, L&K and sole agent for Socomec in KSA & number of others. Through continuous improvement we managed to become one of the leading panel builders, water boosters assemblers, enclosures manufacturer, D-Rain (center pivot irrigation system), Drip irrigation system & HUYA (pre-insulated duct system) manufacturer in KSA.

In the present time, our factories resides on a 10,000 square meter land located in Riyadh's 2nd industrial city & Dammam's 2nd industrial city with state of the art facilities and equipment.

Our wide customer base varying from public to private organizations in various residential, industrial, and agricultural projects.

Message from CEO

It is my pleasure to welcome you to AKEL. We have put together as one team considerable efforts to provide you a comprehensive view of what we stand for, our vision, mission, values and how we consistently fulfilling our promise to our partners.

Whether you're a potential client with a challenging project ahead; an existing client checking up on our latest news; or a supplier or future employee looking for new opportunities, I trust you'll find what you're looking for here.

AKEL is a company that is driving progress and with our partners, building better communities through safe, smart, efficient solutions. Something we have been doing consistently since 1980.

Our progressive thinking and creative approach is what makes us stand out from the crowd. It's why our products and services are preferred by owners, consultants and contractors and why so many of our clients keep coming back to us.

We have a clear vision of what we want to be; a clear mission of how to be there; and we guide our business using four core values. I am proud of the work we do and give you my personal commitment that we will deliver what we promise and do it safely and sustainably.

To make our products and services instantly accessible, we have nine showrooms operating from different prominent locations in the Kingdom of Saudi Arabia.

Enjoy our company profile and feel free to contact your local AKEL office or visit our website at www.akel.com.sa for any additional information.

Yours Sincerely,

Najib A. Alnaim
CEO

Our Vision

“A Strong Position In Manufacturing And Distribution Of Energy, Water Solutions And Irrigation Systems In MENA”

Our Mission

“Provide Markets With Quality Products & Services And Support Local Content Development And Know How Transfer”

Our Values

Adhere To Principles:

1. Customer Focus
2. Transparency In Dealing
3. Justice And Equality Of Staff
4. Dealing With Credibility

Knowledge Transformation:

1. Acquire Knowledge From Its Sources
2. Encourage Our Employees To Acquire Knowledge
3. Exchange Of Experiences
4. Knowledge Documentation

Environmental Care:

1. Create Effective Working Environment
2. Advanced Status In A Competitive Environment
3. Keeping The Surrounding Environment Green
4. Create A Safe Working Environment

Labors Development:

1. Employee Training
2. Taking Care Of Staff
3. Keeping Interest In Saudization
4. Building Leaders

AKEL Switchgear Factory

(Low Voltage Solutions)

(AKEL Electromechanical Products Factory) is aimed at being a serious contender in the distribution panel boards, automation & drives business of Saudi Arabia.

The corporation already represent & distributes for a number of top specialized companies in the field of LV switchgear, automation, drives solutions.

In addition, AKEL continuously monitors technical and business development in its line of business and strive to ensure that it offers the widest possible systems portfolio comprising the latest solutions available from around the world.

AKEL- is serving public & private sector with following products range;

- Prisma-P LV Switchboard up to 4000A
- Prisma-G LV Switchboard up to 630A
- Disbo-Final Distribution Board up to 250A
- Auto Transfer Switch Panels (ATS)
- Synchronization Panel
- iPMCC Intelligent Power & Control Center
- Auto Power Factor Correction Panels
- Lighting Panels
- Enclosed Transfer Switch Solutions

AKEL Electromechanical (Water Management Solutions)

Reliable supply of water at static, high-lying taps. Fluctuating water consumption in different types of buildings, such as schools, hospitals, airports or hotels, requires flexible systems that meet individual demands. With AKEL pressure boosting systems, you can ensure that water will be supplied reliably.

Akel capitalizes on its extensive industrial exposure to offer a comprehensive range of pressure-boosting systems, gaining reputation as the manufacturer and supplier of world-class water pressure boosting pumps.

Akel has established its foothold as the manufacturer of some of the most sophisticated fire fighting systems. The specialized department of design and engineering houses some of the most talented professionals working on dedicated software to deliver reliable fire-fighting systems that meet international design and safety standards including the standards of SASO.

- ⊗ Water Pressure Boosters
- ⊗ Water Transfer Pumps
- ⊗ Irrigation Pumps
- ⊗ Fire Fighting Sys. (UL/FM, Non UL/FM)
- ⊗ Water Drainage Pumps
- ⊗ Sewage Pumps
- ⊗ Dewatering Pumps
- ⊗ Chilled Water Circulation Pumps (Pumps + C. Panel)
- ⊗ Hot Water Circulation Pumps (Pumps + C. Panel)
- ⊗ Water Solutions Pumps
- ⊗ After Sales Service

AKEL Enclosure Factory

Akel enclosure factory is dedicated to design, manufacture, and supply of high-quality enclosures.

Factory is equipped with advanced machines and a skilled workforce, our facility produces a wide range of standard and custom-built enclosures to meet diverse industrial & residential requirements.

From sheet metal cutting and bending to powder coating and final assembly, every stage of production is carried out with precision and adherence to international safety standards.

AKEL "WASL" Enclosures

- Wall mounted enclosures for indoor, outdoor application with certified IP66, IK10 standard sizes, and customize size, galvanized steel with Electrostatic powder coating RAL7032, RAL7035 in various customizable color options.
- Db's enclosures for residential , commercial Application from 12Way, 60Way, IP41 Rated.
- Free standing enclosures for LV switchgear with certified IP54, IK10, indoor, outdoor application, galvanized steel with electrostatic powder coating RAL7032, RAL7035 in various customizable color options.

D-RAIN Factory (Center Pivot Irrigation System)

AKEL has emerged as a leading name in middle east for agricultural and irrigation solutions. We resolve to boost the agriculture sector in the region with our extensive experience, partnerships and feasible farming solutions.

We have provided ceaseless support at every stage of the irrigation or agricultural project with our superior quality of equipment that has been manufactured in our state-of-the-art facility.

Our significantly valuable contributions over the last 40 years to the agricultural community stems from our core guiding principles of the division:

- ① Emphasis on the individual requirements of different irrigation systems.
- ① Rationalization of water consumption.
- ① Provide after-sales service for installation, on-site testing, commissioning and maintenance.

Drip Irrigation

Drip Irrigation is a modern and efficient irrigation system used to conserve water and improve irrigation efficiency. There are several types of drip irrigation, and AKEL Co. is distinguished by its long experience in providing materials, spare parts, installation, and maintenance for this type of irrigation.

Types of Drip Irrigation

- **Surface Drip Irrigation:** Uses plastic pipes and water distribution points directly to plant roots on the soil surface.
- **Subsurface Drip Irrigation:** Uses plastic pipes and water distribution points under the soil surface, reducing water loss and improving irrigation efficiency.
- **Low-Pressure Drip Irrigation:** Uses low pressure to distribute water, reducing energy consumption.

AKEL Company's Services in Drip Irrigation

- **Providing Materials and Spare Parts:** AKEL Company provides materials and spare parts necessary for drip irrigation systems with high quality matching standard specifications.
- **Installation:** AKEL Company installs drip irrigation systems with a specialized and trained team.
- **Maintenance:** AKEL Company provides regular maintenance services for drip irrigation systems.

AKEL Company's Features

- **Experience:** Long experience in the field of drip irrigation.
- **Specialized Team:** Specialized and trained team at the highest level.
- **Quality:** Commitment to quality and deadlines to ensure customer satisfaction.

Benefits of Drip Irrigation

- **Water Conservation:** Reduces water loss and improves irrigation efficiency.
- **Increased Productivity:** Contributes to increased productivity and improved crop quality.
- **Cost Reduction:** Reduces irrigation and maintenance costs.

Transfer From Diesel To Electrical Power For Irrigation Systems

Transfer from diesel to electric power for irrigation systems can be a strategic choice for farmers and investors in the agricultural sector. AKEL Company and the Agricultural Installation Team have over 40 years of experience in the agricultural sector and energy sources, making them a reliable partner in this field.

AKEL Company and Agricultural Installation Team Services :

- Design and Implementation of Irrigation Systems: Designing and implementing efficient and advanced irrigation systems.
- Energy Source Conversion: Converting energy sources from diesel to electricity for irrigation systems.
- Equipment Maintenance: Regular maintenance of electrical equipment to ensure efficient operation.

AKEL Company and Agricultural Installation Team Features :

- Extensive Experience: Over 40 years of experience in the agricultural sector and energy sources.
- Specialized Team: A specialized and highly trained team.
- 24/7 Team Availability: The team is available 7 days a week, 24 hours a day, to ensure quick response to any request or issue.

Benefits of Collaborating with AKEL Company and Agricultural Installation Team :

- Cost Savings: Saving operational costs for farmers by converting energy sources.
- Increased Efficiency: Increasing irrigation system efficiency through the use of modern and advanced equipment.
- Technical Support: Continuous technical support to ensure irrigation systems operate efficiently.

Why Choose AKEL Company and Agricultural Installation Team?

- Experience and Efficiency: Extensive experience and high efficiency in the agricultural sector and energy sources.
- Commitment to Quality: Commitment to quality and deadlines to ensure customer satisfaction.
- Technical Support: Continuous technical support to ensure irrigation systems operate efficiently.

HUYA

Pre-Insulated Duct System (Dammam)

HUYA Pre-Insulated Duct Factory is a pioneer in pre-insulated foam ducting. HUYA is the first company in the Kingdom of Saudi Arabia to introduce the innovative and revolutionary foam based pre-insulated ductwork as the new generation material that replaces traditional sheet metal in ductwork.

Thanks to the special technical and structural characteristics, HUYA panel ductwork can be used in any project typology: offices, industries, commercial centers, airports, hospitals, clean rooms, laboratories, public buildings, hotels, quarantine rooms, isolation rooms, etc.

In addition to the panel, HUYA offers a complete set of tools and accessories that allow HUYA ductwork to satisfy any project and installation requirement as well as thermal insulation panels for roof insulation, wall insulation, floor insulation and false ceiling with different sorts of facing like Kraft Paper, Asphalt Paper and Glass Fleece.

- ⌚ Easy to Design
- ⌚ Hygiene.
- ⌚ Cost Saving
- ⌚ Excellent Reaction to Fire.
- ⌚ Clean Transport of Inside Air
- ⌚ Lack of Condensation
- ⌚ Improve the Performance of your Installation

ICMS

Industrial Cable Management System

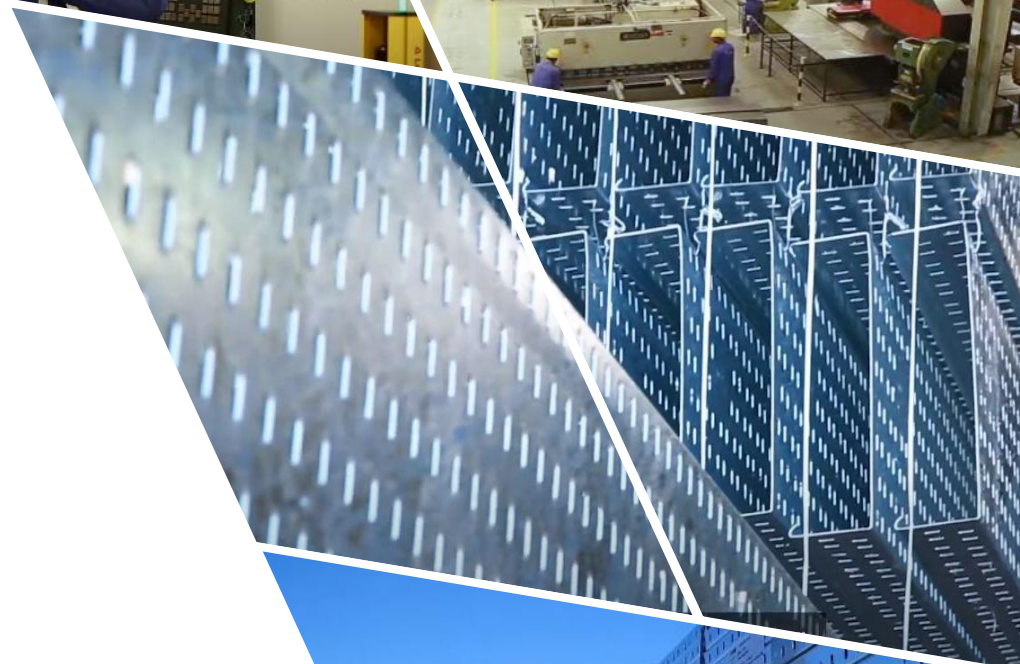

ICMS was established in 2006, as the first local manufacturer of the complete cable management systems, fittings, and support, according to the international standards.

ICMS has experienced exponential growth, with the company earning a reputation with an impressive track record of prestige projects. ICMS is an ISO certified company, and products are UL certification. Having the expertise with more than fifteen years in the field of manufacturing and sales of the cable management system in gulf region, gave us the strength of producing competitive products without compromising the quality.

ICMS is committed to supply world-class cable management systems ranging from Cable Trays, Cable Ladder to Cable Trunking and Support Systems.

Based in Doha, Qatar, ICMS owns and operates a fully equipped and modern facility with a wide network of distributors across the Arabian Gulf. Its unwavering focus, with effective networking and top quality customer service has enabled ICMS to become a leading electrical material supplier in the Middle East.

SOCOMECC

Control & Safety of Low Voltage Electrical Networks

Founded in 1922, Socomec is an industrial group with a workforce of 4200 people. Our core business – the availability, control and safety of low voltage electrical networks with increased focus on our customers' power performance.

Low-Voltage Power distribution & Control Systems

AKEL Trading & Industrial Co. has been Recognized as Authorized Partner of Low Voltage Systems.

Specialties;

Load break switches / Fuse protection
Transfer switches equipment / Electronic protection,
Metering, monitoring / energy management, UPS / STS
Rectifier / Energy storage and Photovoltaic switching &
protection / Power conversion and Energy storage
solutions.

EATON

Power Management Company

Eaton is an intelligent power management company dedicated to improving the quality of life and protecting the environment for people everywhere. We are guided by our commitment to do business right, to operate sustainably and to help our customers manage power today and well into the future.

By capitalizing on the global growth trends of electrification and digitalization, we're accelerating the planet's transition to renewable energy and helping to solve the world's most urgent power management challenges.

Low-Voltage Power distribution & Control Systems

AKEL Trading & Industrial Co. has been Recognized as Authorized Partner of Energy Low Voltage Systems.

L&K

Electrical & Automation

L&K Electrical & Automation (E&A) is a part of **SCHNEIDER ELECTRIC** and market leader in the **LOW VOLTAGE & MEDIUM VOLTAGE** switchgear category, electrical systems, automation systems integration, energy meters & relays. Its products and solutions cater to industries, utilities, infrastructures, buildings and **AGRICULTURE** segments.

Akel Trading & Industrial Co. is an authorized distributor & panel builder. Products manufactured and marketed by Electrical Standard Products division of L&K Electrical & Automation are authorized to utilize in **AKEL's** Switchboards, SMDBs and Distribution boards for Saudi Arabia.

Low-Voltage Products

- Ⓜ Air Circuit Breakers
- Ⓜ Change Over Switch
- Ⓜ Contactors
- Ⓜ MCB, RCCB, RCBO, DBs
- Ⓜ Motor Protection Circuit Breakers
- Ⓜ Molded Case Circuit Breaker
- Ⓜ Panel Accessories
- Ⓜ Thermal Overload Relays
- Ⓜ Agricultural Readymade Solutions

TESK

Water Pumps

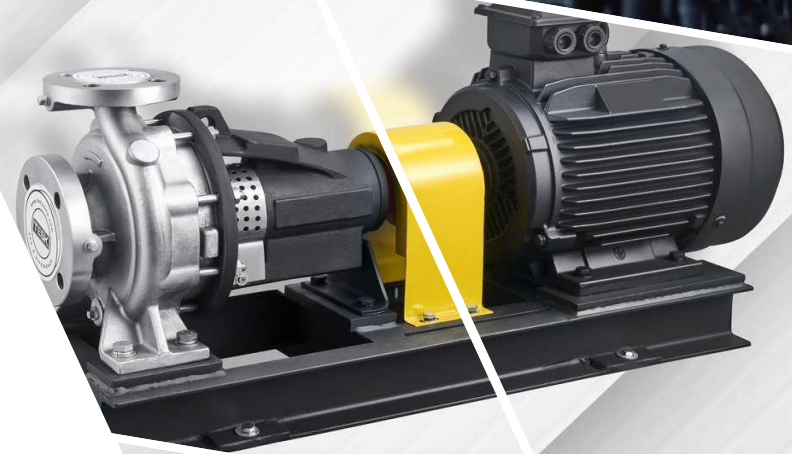

TESK is a brand name of Zhejiang Nanyuan Pump Ind. Co., Ltd. Located in Zhejiang, China. Specialized in R&D and large-scale production of stainless steel centrifugal pumps.

TESK has set up a wide range of water pump solutions for a various applications as building water service, industrial process, agricultural irrigation, groundwater pumping and other industrial boosting systems.

In order to ensure the high quality of products, TESK uses advanced production equipment, we have a vertical integration of the production processes, outstanding technology of stamping and welding, and precise processing technic of castings.

We guarantee every single pump with high standard specification for inspection. The mission of TESK is to provide high quality pump products and high level service to our valued customers.

NMFIRE

NMFIRE®
Protect life, love and history

Fire Fighting System Co.

CNP NM Fire-Fighting System Co. Ltd. referred as NM Fire is mainly producer and seller of diesel engine & motor fire pump groups, controllers and fire pumps which are in accordance with domestic & international standards and have gotten related certifications.

NM Fire is the first company in the world who has authorized by UL CCIC as witness testing center for both fire pumps and fire fighting engines.

As the first Chinese Member of NFPA, NM Fire has a strong technical team with more than 20 years' global fire equipment R&D experience, including a number of foreign engineers and experts.

NM Fire became the first company in the world to have both UL Listed fire pumps and fire engines, which consisted of the NM Fire Team's 5 years' hard work and huge investment by enterprise.

SEA LAND Electric Pumps

SEA-LAND S.R.L. since 1990, is committed to study, realize, industrialize and produce electric pumps.

The Company is a truly “**Made in Italy**” manufacturing excellence: excellence is what Sea Land wants to reach in every phase of its production.

Through an experienced team of engineers and technicians, all products are manufactured with maximum care, from the design to the final tests before their shipment to clients. Advanced technical features and manufacturing process guarantee high performance and reliability of the pumps. Innovation, customer satisfaction and reliability are primary aspects of SEA-LAND.

Our company offers solutions for domestic and civil use and for irrigation and industrial plants, with pumps capacity ranging from 2m³/h to 1800m³/h.

SEA-LAND is recognized as a leading player in the industry, exporting its high quality pumps to more than 60 countries all over the world.

Service

After Sales Service And Maintenance

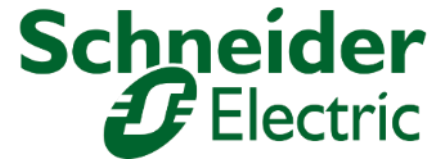

In **AKEL** we have a team of engineers and technicians specialized and highly experienced with over 25 years of experience provide the solution and solving the problem with technical advice , And provide support to be ensure about the reliability of your Pumps and Panels in high quality and standard All over the KSA .

Our Services:

- 🔊 **Installation** : agriculture central Pivot , pumps systems and electrical Panels .
- 🔊 **Testing and Commissioning** .
- 🔊 **Maintenance and repair** :agriculture central Pivot , pumps systems, motors and electrical Panels .
- 🔊 **Programming** :
 - Drives Programming:- SOFTSTARTER ,VFD
 - PLC Programming:- Zelio ,Modicon
 - Power Factor Controller
 - ATS Controller (ComAp)- (Socomec)
- 🔊 Warranty issues.
- 🔊 Preventive maintenance contract .
- 🔊 Alignments .
- 🔊 On site Training .
- 🔊 24/7 breakdown service .
- 🔊 The workshop contains the most important testing and measuring devices .
